## APSR 2007 Poster Instructions

The authors of all accepted posters are required to display and present their work at the allocated poster presentation session on either Sunday 2 December or Tuesday 4 December. Posters will be displayed in the main foyers on Level 1 of the Gold Coast Convention and Exhibition Centre. Posters should be displayed from 9.00 am to 5.00 pm daily.

### Poster Presentation

Poster set up	8.00 am – 9.00 am
Poster discussion session	11.30 am – 12.30 pm
Poster removal	5.00 pm – 5.30 pm

### Display Time

Your poster must be completely set up by 9.00 am at the latest and must be dismantled by 5.30 pm. Any posters remaining on their panels after the removal time will be discarded by the Secretariat.

### Poster Session

The presenting author must stand by the poster during the designated poster session. Poster session facilitators will be assigned to lead discussion around the posters. The author should prepare a brief 2 – 3 minute summary of the work and be prepared to answer relevant questions from delegates interested in the work. Please ensure that a clear and succinct description can be given, highlighting the key findings. Do NOT plan to read out all of the text on the poster. Several of the sessions have many posters and time will be limited.

### Poster Size

The display board measures 180 cm by 90 cm. Please ensure that your poster is no larger than this area. Posters must be fixed to the boards using "Velcro" (the hook side only). This can be obtained from the Registration Desk.

### Poster Number

Your poster board will be prepared by the Secretariat Office and labeled with the number allocated to your poster (this number will be advised in October). Please check your poster number and session details on the detailed program that will be posted on the website in late October.

### Poster Text

The poster title, author(s) and institution(s) should appear at the top of the poster. The message should be clearly laid out and understandable.
