

APSR 2011 - 6 November (Sunday) - Scientific Program

Venue: Shanghai International Convention Centre

07:30-08:00												
SY17 - Cell and Molecular Biology (venue: Century Hall, SHICC)			SY18: Pathophysiology of Lung Cancer and its Application to Clinics (venue: Yellow River Hall, SHICC)			SY19 - Updates on Interstitial Lung Disease (venue: Yangzi River Hall, SHICC)			SY20 - GOLD Guidelines Update and Some Asia Pacific Perspectives (venue: Auditorium, SHICC)			
Dean Sheppard	US	Regulation of Airway Smooth Muscle Contraction and Asthma by Integrins on Smooth Muscle, Epithelium and Inflammatory Cells	Koichi Takayama	JP	Cancer Cell Detection Using Modified Viral Vector	Roland M. Du Bois	UK	Update on the Treatment of Idiopathic Pulmonary Fibrosis	Nanshan Zhong	CN	Early Diagnosis & Intervention in COPD in China	
Lian Wu	NZ	Synthetic Profile of COPD Fibroblasts and Restoration of Elastic Fibres	Akira Inoue	JP	Molecular Mechanism of Resistance to EGFR-TKI	Takeshi Johkoh	JP	HRCT Findings of Idiopathic Interstitial Pneumonias (IIPs): Impact from the New Guideline	Jorgen Vestbo	UK	Overview of Recommended Modifications in the Global Strategy for Diagnosis, Management, and Prevention of COPD (revised in 2011)	
Takahide Nagase	JP	Molecular Mechanisms Underlying Respiratory Diseases	Ping Yang	US	Common and Unique Genetic Alterations between COPD and Lung Cancer	Jian Kang	CN	Epidemiology, Clinical Features and Diagnostic Approach of Sarcoidosis in Asia	Roberto Rodriguez-Roisin	ES	Treatment of COPD Exacerbations	
Hiroshi Kubo	JP	Roles of Stem Cells in the Lung	Ming Wei	AU	Developing a novel therapy for lung cancer	Cheng Li Que	CN	Management of Connective Tissue Disease Associated Interstitial Lung Disease	Kazutetsu Aoshiba	JP	COPD Guidelines of Japanese Respiratory Society: Similarities and Differences	
10:00-10:30												
Visit Exhibits / Break												
SY21 - Lung Imaging and Function (venue: Century Hall, SHICC)			SY22 - Lower Respiratory Tract Infections Updates (venue: Yellow River Hall, SHICC)			SY23 - Strategies in the Treatment of Tuberculosis for Better Outcomes (venue: Yangzi River Hall, SHICC)			SY24 - Clinical Updates in Focus (venue: Auditorium, SHICC)			
Jerry Yu	US	Vagal Afferents in Control of Respiratory System during Pulmonary Diseases	Waterer Grant	AU	Changes of ATS/IDSA Guideline for Pneumonia	Charles Yu	PH	How Can We Improve the Quality of Care and Treatment Outcomes for TB - A Hospital Perspective	David Lam	HK	Lung Cancer from Prevention to End-of life Care	
Hajime Kurosawa	JP	Reform and Innovation of Forced Oscillation Technique	Yong Pil Chong	KR	Diagnosis of Community Acquired Pneumonia	Qing Zhang	CN	Drug-resistant TB and Treatment Strategies	Peter Eastwood	AU	Sleep Disordered Breathing	
Jin Mo Goo	KR	Lung Structure and Chest X-Ray/CT	Tadashi Ishida	JP	Differentiation between Bacterial Pneumonia and Atypical Pneumonia	Nhung Viet Nguyen	VT	How can We Improve Quality of Care and Treatment Outcomes - A National TB Program Perspective	Monica Kraft	US	COPD	
Shaoguang Huang	CN	Better understanding of lung structure and function for the treatment of COPD	Jieming Qu	CN	Epidemiology of Community Acquired Pneumonia - An Asian/ China Perspective	Guy Marks	AU	What Role Can APSR, Working with Partners, Play in Improving the Quality of Care and Patient Outcomes?	Roland M. Du Bois	UK	Making the Diagnosis in Interstitial Lung Disease	
Jinping Zheng	CN	Importance of Reference Values in Lung Function Tests	Ronald Grossman	US	Pneumonia Updates							
12:30-13:00												
Closing Ceremony
